KUHIO'S

2 WOMEN TEACHERS LOST IN WILDS

DELEGATE KUHIO'S FORCING ISSUE

Will Run on Platform of Prst Against Governor Frear

Delegate Kuhio is prepared to run for delegate on an independent platform. This was made certain during the Star-bulletin's signed statement drawn up with the utmost care and carrying in every sentence a unmistakable determination to support the citizens of the Territory on an anti-Frear platform.

The statement is the first detailed announcement of his plans that the delegate has given since his return from Washington, and adds another feature to the controversy waged between the delegate to Congress and the territorial administration.

The open program furnished the life convention held in Honolulu to appoint delegates to the National publican Convention show that few men who have obtained control of the sugar interests in Hawaii have also obtained control of its policies, and that they broaden their fight next November to include them with Governor Frear as a direct issue.

In other words I will see that the issues on which I run are such that every man and I wish to say every woman who votes November will know the choice to vote, whether he wants to vote for Cooke, combine to continue to support and represent Hawaii, or whether it is time for their control to be transferred to the people of Hawaii.

Of course, if it will be said, I am attacking the sugar industry, I never have attacked it, and never will. It is an asset of the people of Hawaii for all time, and I want to see it secured, to secure better prices and raised by homesteads and some able shipping rates for shipper produce to market, and to help homes on the public lands to secure better treatment all for the man of small means is to injure the sugar industry or business interests of the country, to broaden them and make that the people of the United States in

Searching Parties Out for Men and Women Missing Since Last Saturday

Somewhere in the fastnesses of the Koolau range a party of persons, three men and two women are wandering, lost, Saturday night and without food or shelter. The missing persons are inspectors in Kawaiahao Seminary and college, and since their failure to return Saturday night, parties of searchers have been sent out in all directions to find them.

The failure to find the missing persons during thick fog yesterday resulted in the suggestion that Sheriff Jarrett should send six parties to continue the search.

The search parties were sent out in all directions to find them. The search parties were sent out in all directions to find them.

NO DIVIDENDS FOR M'BRYD/GAR SAOKE

McBryde sugar is not going to pay a dividend to the conditional stockholders. This was made known to the stockholders yesterday when Joseph P. Clark, secretary of the McBryde Sugar Co., announced that the company had decided to pay a dividend of \$100,000.

Mr. Dickey was interviewed by the Star-bulletin today and expressed much gratification over the news. He had not heard of the news until yesterday, when he saw it in the paper. He is now in the city and expects to leave for the country tomorrow.

LURLINES HAV

Lurlines have been found in the mountains. The search parties were successful in finding them after a long and arduous search.

SH

SH is a new article. It is a very useful and durable material that has been recently discovered.
